[KSERS 2026] The Annual Congress of the Korean Society of Endo-Laparoscopic & Robotic Surgery (April 23–25, 2026 | Seoul, Korea)

Dear Colleagues,

On behalf of the Korean Society of Endo-Laparoscopic & Robotic Surgery (KSERS), it is my great pleasure and honor to invite you to the KSERS 2026 - The 58th Congress of KSERS & the 16th International Symposium, which will be held from April 23 to 25, 2026, at Lotte Hotel Seoul, Korea. This upcoming congress is especially meaningful as it marks the 30th anniversary of the founding of KSERS.

Celebrating the 30th Anniversary of KSERS, this year's congress will serve as a meaningful occasion to look back on the Society's journey and to discuss the future directions of surgical innovation and global collaboration.

The scientific program will feature diverse sessions including Joint Symposiums with major international societies such as SAGES, EAES, JSES, LEST, and KAHBPS, as well as the Master Video Session, Presidential Lecture, and Keynote Lecture.

In particular, the Keynote Lecture will be delivered by Dr. Yulun Wang (Sovato Health, USA) on "Legacy and Vision: 30 Years of Robotic Surgery and the Road Ahead." In addition, various interactive sessions such as the Mentor–Mentee Award, Hands-on Session, and Nurse Forum will further enrich this year's program, providing participants with extensive opportunities for academic exchange and collaboration.

We would be grateful if your society could kindly help us promote KSERS 2026 by sharing this announcement through your website, newsletter, or relevant communication channels.

We look forward to your valuable participation and to welcoming you to Seoul in April 2026.
